Pour Deux Maternity for Two Maternity Candles make a unique baby shower gift for a mom-to-be. Each of the 12 candles (one for each month) describes the personality the baby should have based on the month the baby is due. The company says they created these monthly maternity candles in honor of the one thing every woman focuses on from the time she learns she's pregnant: the month the baby is due. It is hoped that, as the mom-to-be illuminates this beautiful dual-wick candle, she will gain insight into the personality characteristics of her future child that are unique to his or her birth month. In addition to making a great shower gift, one of these would be a cherished holiday gift for a pregnant woman who's due next year. Each candle sells for \$38, with free shipping, at MaternityForTwo.com.
